

Church Photographic Services

Above is an example of a photographic book we produced for Holy Trinity Church in Coventry, which is a new concept in **FUNDRAISING** for your church, and which requires **NO INVESTMENT** from your church. I am a former diocesan office worker and cathedral layclerk, and my colleague is a former Head Server from a large city parish church, who understand the needs and challenges of parishes.

Our photos are not the standard ones that most people take - we look for unseen detail and highly artistic views to give a unique perspective of your church building

Our concept is:

- You allow us to come and take photographs of your church - free of charge
- We publish a high-class photographic book of your church, online, at our own cost
- We guarantee *at least* £2 from each book sale will be returned to you as a **donation**
- We do NOT require you to buy any books yourself
- The library of images can then be used for other fundraising applications

See our website for further information - PLUS an e-preview of the book:
